

Student Testimonials

2/15/2017

this is the nursing school and best teacher i highly recommended im so blessed and thankful that they helped me to receive my CNA

4/9/2017

Amazing experience! Starting from Ashely at the front desk, and all the way until your last instructor in clinicals! Doris and Rene are the best teacher, with a lot of knowledge and real examples. Tuition cost was very affordable, and among other institutes I looked, I choose this one because of the variety and flexible schedules!

Thank you blossom! I'll see you in the floor!:))

4/9/2017

I just completed my CNA training at blossom in Lakewood. It's a very fast paced program but well worth it. I have never met a more compassionate set of instructors to learn from(Dorris is amazing, and genuinely kind hearted and funny, even to I, one of her three "bad girls " Mrs. Jerry is amazing too)They are not only compassionate about CNA work but also about you learning and learning it right! They are very well known in the medical field and for good reason. They allow you to come back and practice in there building (which is a state testing site) as much as you need to after completing the course. I loved this program and will recommend to everyone I know seeking a rewarding career there is so much more good things to say however it would take to much time so I end it with Go To Blossom it's affordable, convenient (state testing site your familiar with) and your instructors are compassionate in this rewarding care

Love love LOVE Ms. Doris and Blossom!!! She explained things so well and did it in a way where she made sure everyone understands the material. She is willing to work one on one with you if you need some help. The course goes by very quickly (but that is a personal choice because on their website, it shows that the course only takes 3 weeks to complete), where other CNA programs take about 3 months to complete. Ms. Doris is so caring, energetic, funny, and incredibly helpful. I would definitely recommend this CNA school, and am so happy with my choice of attending here

December 20, 2016

It was an amazing experience and the best CNA school for sure! All of their instructors and staffs are helping you to pass the class and the state examine. plus tutuion is very reasonable and program is only 3 weeks! how nice! :D

6/22/2016

Blossom was cheaper in comparison to other schools in the area and the program I completed only took 4 weeks. The instructors are great and constantly stay updated with any changes the state makes to the certification exam. I felt well prepared leading up to the state exam and passed on my first try. Doris lets you practice skills for the skills portion of the exam after you've completed your training. It's really helpful if you take the time to go over and practice. The only thing Blossom really needs is more parking!

6/9/2016

Blossom is a great school! I was recommended by many of my friends, who passed their state certification tests because they went to Blossom. Doris is a great teacher, she is super lively and comfortable to be around. Since she is very specific and gives you a lot of detail, there is no way you can fail the test. If you practice the skills she teaches you, you are set to be certified! The facility allows you to practice anytime they are open, and it is an official state testing site so you can get familiar with your surroundings before taking the test. There are also great videos that show what you need to do for each skill. This program is also the quickest, and is the best deal you can get! 100% recommend.

April 8, 2016

Doris provided me with the training essential to perform the skills I needed to work as a competent CNA. She is an amazing RN who had strength & vision to see the great need in our communities for well-trained CNA's, so she started her school, Blossom CNA. You will blossom into a fine CNA under her instruction

4/20/2016

Great experience and done in 3weeks. Make sure to ask clarifying questions and you should be just fine. The least expensive school around.

10/6/2015

Going to Blossom was one of the best decisions I have made in my life! Doris and Jerri really helped me to thrive in the class. Although it was fast paced I really understood all of the material that was taught. Doris was so kind hearted to open up her office for my peers and I to practice together, and after all of the countless hours we spent practicing and using up Doris paper towels and toilet paper we all passed the state test the first time.

July 21, 2015

Thanks to Blossom, I was prepared for the state exam. The instructors are really caring and want to see their students succeed, and Doris especially has a great sense of humor! If you're putting in an effort to succeed, they'll help you as much as you need it. Thanks to their training, I whizzed through my written state exam and passed the skills exam also. If you're looking for a great CNA class, Blossom is an amazing option!! :)

3/18/2015

I attended Blossom and I must say that class was not only well instructed, it was interactive and fun. This made it easier for me to get up and go after a long week of work. I looked forward to laughing with my classmates and teachers. I chose the weekend class because of my work schedule. Dawn and Gerry were my instructors. These two women were full of energy and fun. The curriculum wasn't too fast paced. Dawn and Gerry made sure that you were learning. If you needed extra help on the side, you got it. English was a second language to most of my class so that was a bonus for some. Then comes Doris whom we called Blossom. She worked with us on our skills... Wait before I go on... Doris owns the school so to see that she was hands on in my learning showed me that she genuinely cares that her students are SUCCESSFUL. Ok, now like I was saying Blossom worked with us on skills. She was very thorough giving step by step directions on "how to" complete a skill.

The school site is also a State Approved testing site. This is a plus for all who attend for when you take your state test (if you choose to test there). I was already familiar with all of the equipment, so I felt right at home. My test day came, I had normal test jitters but all I could hear was Blossom's voice talking to me while I'm completing the skill. Her voice registers you'll see...LOL It helped get me through but don't take my word for it. Take the course for yourself and you will see. These women make the course EASY as 1 2 3.

3/23/2015

Blossom training school is one of a kind. The instructors were terrific, and taught us all that we needed to know before we had clinicals and the final exam. It prepared me well for the state exam as well.

8/20/2014

The best CNA school you can find. The price is very reasonable and it's lower than the other schools that I could find.

The length of the program is short - 3 weeks, whereas others sometimes take about a month. Instructor are very very nice, and funny. Doris the director is also very funny and nice, she makes sure that you know everything that you need to know before you go to clinicals and have to take the state exam.

After you have finished taking the classes, she allows you to go back to the school to practice so that you would be prepared for the exam.
